# A: Eight, core selection

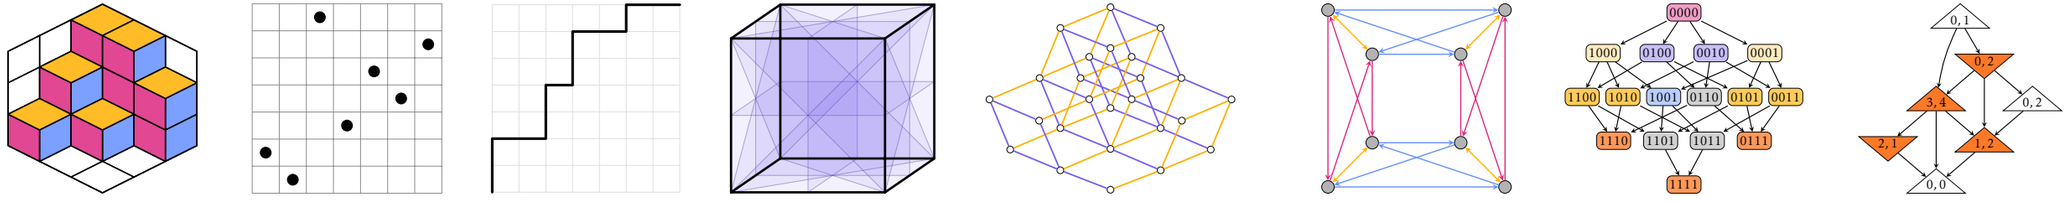

Left to right: Fraenkel tree; Rhombic tilings; Graph of a permutation; Permutahedron; Type II heap; Cayley diagram for $Q_8$; Game graph; Structure diagram for a $2 \times$ odd grid.

# B: Eight, tilings and graphs

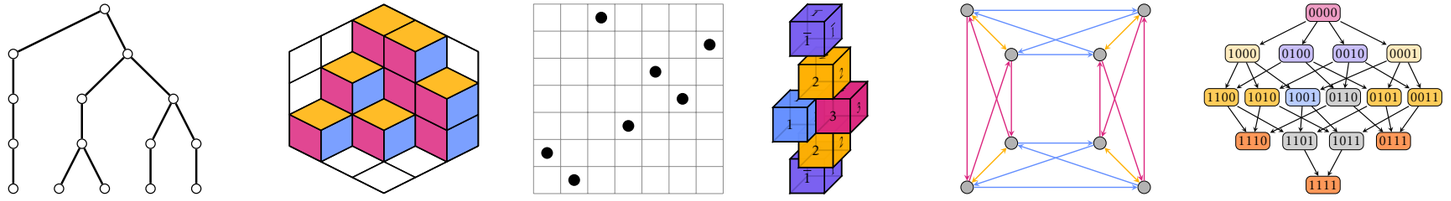

Left to right: Fraenkel tree; Rhombic tilings; Braid graph; Permutahedron; Type II heap; Cayley diagram for $Q_8$; L-tromino tiling; Game graph.

# C: Eight, including the maybes

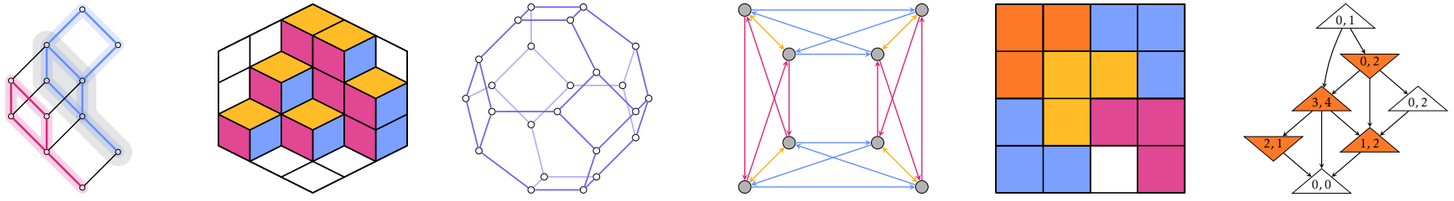

Left to right: Rhombic tilings; Graph of a permutation; Dyck path; Hyperplane arrangement; Box product of graphs; Cayley diagram for $Q_8$; Game graph; Structure diagram for a $2 \times$ odd grid.

# D: Six, core selection

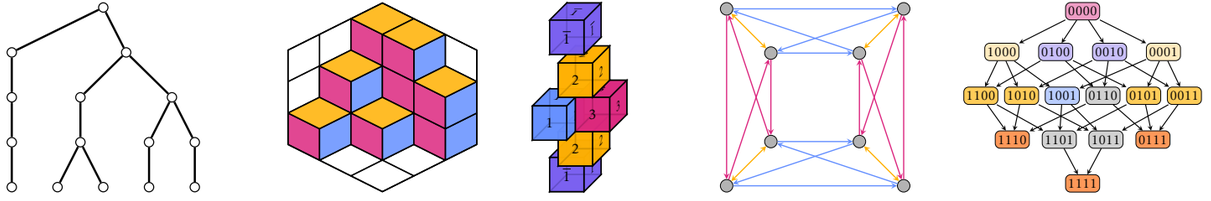

Left to right: Fraenkel tree; Rhombic tilings; Graph of a permutation; Type II heap; Cayley diagram for $Q_8$; Game graph.

# E: Six, tilings and graphs

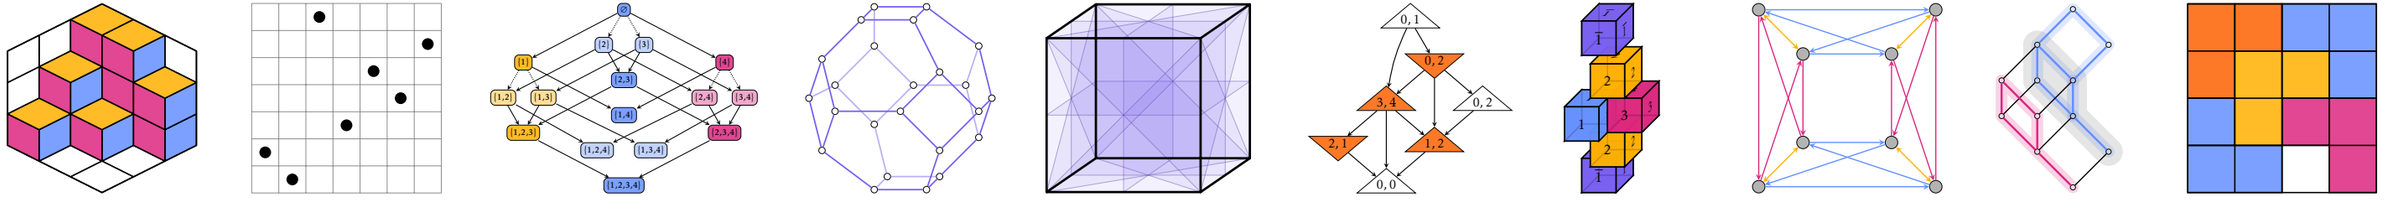

Left to right: Braid graph; Rhombic tilings; Permutahedron; Cayley diagram for $Q_8$; L-tromino tiling; Structure diagram for a $2 \times$ odd grid.

# F: Five, more space

Left to right: Fraenkel tree; Rhombic tilings; Type II heap; Cayley diagram for $Q_8$; Game graph.

# G: Ten, requested selection

Left to right: Rhombic tilings; Graph of a permutation; Gamegraph on subsets of $\{1, 2, 3, 4\}$; Permutahedron; Hyperplane arrangement; Structure diagram for a $2 \times$ odd grid; Type II heap; Cayley diagram for $Q_8$; Braid graph; L-tromino tiling.
